Office Action Summary

Art Unit: 2811

On page 8, line 14, "y and m" appears misprinted.

Claim 2 is rejected under 35 U.S.C. 112, first paragraph. The claim does not agree with Figure 1D, where the active layer 12 is on layer 11, rather than on GaAs substrate 10.

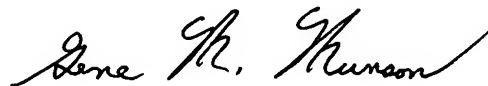

Claims 6-11 are rejected under 35 U.S.C. 112, second paragraph. Claim 6 is inconsistent with claim 1, where the "clad" layer is "formed on the active layer".

Murakami et al is cited of interest in showing use of a GaAlInP active layer in a light emitting element.

Claims 1 and 3-5 are allowed over the art of record.
